

## Aviation Day 2015 Participant List (As of 02-20-15)

Aviation Day 2015 will feature a wide range of aircraft on static display, including classic, homebuilt, vintage, new production, light sport and military types. Formation flyovers are planned for mid-morning and mid-afternoon, and flybys will be happening throughout the day. For those with a yearning to fly, vendors will be offering rides in a Robinson R-44 helicopter, and a classic New Standard biplane. For those who prefer to stay grounded, EAA 99's flight simulator will provide the virtual experience of flying a plane.

The following aircraft are expected to be on display at Aviation Day 2015:

---
